Paula,

1. Have you checked the GIS portal to see the maps we already have for this site? Perhaps an existing one already meets your needs.

<http://r8gissvr.r08.epa.gov/GISPortal/Maps?state=Colorado&Prj=Upper%20Animas%20Mining%20District%20-%20Mogul%20Grand%20Mogul%20Mines>

2. If there is not a map that meets your needs, please identify the one that is closest to what you would like and let me know what specific changes you need.

The timeframe is tight, so Monday may not be a realistic deadline, but we will see what can be done. We usually need more advanced notice given all the other requests in the queue.

John

We have many maps of the area already made that would be easy to modify. Any chance ESAT could get one made before COB Monday?

Dan – Do we have a good aerial photo map that shows not only Cement Creek but the upper reaches of the Upper Animas watershed above Silverton? I'd like to have something that we can show at the briefing with the RA next week if at all possible. I know this is rather late to be asking this so it may not be ready for Tuesday, but at some point I think we need to get such a map for future briefings or other meetings with State and BLM, etc. as well as the community. Don't know if you can task Techlaw for such a request.

Thanks.

Paula Schmittziel
